New TOUCH

Intuitive

Ergonomics

The new sensitive range by PRESTO®

New Touch

Its sleek design of harmonious lines and its ergonomics adapted for everyone makes the PRESTO NEW TOUCH range change the codes of the market of the taps for public places.

Thanks to its ultra sensitive system*, a simple light touch on the button is all that's required to activate or stop the flow of water. An intuitive effortless technology adapted to all types of public places and users (including the disabled, the elderly, and children).

If you forget to stop the water by touching the button, after a 6 second preset flow time, the water stops automatically. A Start / Stop function which saves up to 80% more water than traditional non self-closing taps.

Designed to resist to an intensive utilisation in high traffic public places the NEW TOUCH is perfectly suited for schools, the healthcare, businesses or even residential market.

In addition to its chrome version, the NEW TOUCH tap offers a range of colored covers for an aesthetic customization.

It also accentuates the contrast between the button and the body, thus facilitating the accessibility for visually impaired individuals.

Going the extra mile for you: we can customize your NEW TOUCH tap with a color of your choice according to your wishes**...

...a unique specialty of PRESTO®

* Piezo technology

** on request
